

ACS is now a Xerox company

A xerox  Company

August 18, 2010

As further indication of ACS' strong commitment to a long-term partnership with Indianapolis, ACS offers the following supplemental clarification:

1) Increase our upfront aggregate payment to \$35 MM for the on street meter concession.

The additional \$5MM would be included with the second payment scheduled after closing.

2) Simplification and rebalancing of the revenue share

In addition to the upfront payment, ACS would also provide an ongoing revenue stream to the City that reshuffles the revenue share to make the calculations simpler. This ongoing revenue stream will allow the City to share in parking and violations revenues as they increase over time as a result of more meters, new technologies and new services. The revenue sharing proposal will calculate revenue share based upon monthly revenues collected. Annualized figures are shown for illustrative purposes only.

Tier Level	Range of Monthly Revenue	Annualized Monthly Revenue	Percentage of Revenue	
			City	ACS
Tier 1	\$700,000	0 - \$8.4 million	20%	80%
Tier 2	\$700,000 +	\$8.4 million +	55%	45%

Note: Tiers are not retroactive. Tiers grow according to inflation index.

ACS continues to be committed to Indianapolis and expanding its economic growth. We welcome the ability to serve the citizens of Indianapolis.
